DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claims 1 and 10, the prior art of record neither shows nor suggest an apparatus for repairing an organic EL element defect comprised of, in part, an electrical testing chamber equipped with a power supply source, the power supply source applying a current or voltage so as to turn the short circuit portion of the EL element to an open circuit; and an insulator forming chamber, in which an insulator is formed on the open circuit portion, along with the other limitations of the claims.

Due to their dependency, claims 2-9 and 11-20 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2879

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 2002/0042152 A1 disclose the state of the art for the method of repairing an EL display.
